LIFESTYLE SESSIONS

I LOVE LIFE

Hi I'm Tiff!

As a documentary photographer, I work like your own personal photojournalist.

Your life is the story, I just play witness with my camera. From the playful laughter you experience as you run with your kids on the beach, to everyday moments like making breakfast with your kids in your pj's, I am inspired by your life story.

I LOVE TO PHOTOGRAPH PEOPLE

It's just that simple and significant.

“All I need is YOU to make for a great session!”

What is a Lifestyle Photography Session?

My lifestyle photography sessions are documentary style shoots that incorporate portraiture and photojournalism.

Basically, I combine the traditional “sit and smile” photos with a little candid laughter, small chit-chat, and some fun shenanigans by the sea. Outdoor photo sessions are shot about an hour or so before sunset to ensure for the best possible lighting. I also go to local parks, trails, the boardwalk, or even your own home.

Documentary photography truly can happen anywhere! All I need is YOU to make for a great session.

WHY ME?

During a photo session with me, I am not just a photographer. I am an artist, a careful observer, a keen listener, a bit of playful entertainment, and hopefully by the end of your time with me,

YOUR FRIEND BEHIND THE LENS.

TESTIMONIAL

"The real deal. Fun, dynamic, intuitive. If you have a large family that has a lot of energy and charisma, most photographers get overwhelmed or intimidated and try to slow-down or dumb-down the shoot. It's easier for them. But Tiffany is nimble and experienced and relentlessly good-natured. She embraces the quirk and captures lightning in a bottle. A lovely, experienced photographer with talents far beyond her youthful style."
